PRESS RELEASE

FORSEE POWER WILL EQUIP BOZANKAYA TROLLEYBUSES IN PRAGUE

Paris, March 4, 2025 - 6:00 pm CET – Forsee Power (FR0014005SB3 – FORSE), the expert in smart battery systems for commercial and industrial electric vehicles, announces that Turkish manufacturer Bozankaya has chosen the FORSEE PULSE 15 high-power battery system to equip the trolleybuses in Prague for which they recently won a tender.

This comes after a first announcement in January of 33 trolleybuses for the Municipality of Timisoara in Romania.

From now on, Forsee Power will equip the entire range of Bozankaya's new generation of trolleybuses, available in 3 lengths: 12, 18 and 24 meters. The Turkish manufacturer has selected two of Forsee Power's technologies to power its electric buses equipped with pantographs: FORSEE ZEN PLUS for opportunity charging, and FORSEE PULSE 15 for fast charging at bus stops.

Forsee Power battery packs will be manufactured in Chasseneuil-du-Poitou, France. The Group also operates factories in North America and Asia to meet global demand.

About Forsee Power

Forsee Power is an industrial group specializing in smart battery systems for sustainable electric transport (light vehicles, off-highway vehicles, buses, trucks, and trains). A major player in Europe, Asia and North America, the Group designs, assembles, and supplies energy management systems based on cells that are among the most robust in the market and provides installation, commissioning, and maintenance on site and remotely. More than 4,200 buses and 145,000 LEV have been equipped with Forsee Power's batteries. The Group also offers financing solutions (battery leasing) and second-life solutions for transport batteries. Forsee Power and its 750 employees are committed to sustainable development and the Group has obtained the Gold medal from leading sustainability rating agency EcoVadis.
